

RLI Food Grade™ Cleaner (Water-Based Water-Soluble Detergent)

RLI Food Grade™ Cleaner is a specially formulated, biodegradable cleaner/degreaser designed for food processing facilities and environmentally sensitive applications. This highly concentrated, non-caustic solution delivers exceptional cleaning power on grimy, baked-on residues and excessive oily build-up found in ovens, stoves, and grills. It also replaces petroleum solvents in industrial shops for cleaning parts and equipment.

Free from phosphates, petroleum distillates, and hazardous components listed under SARA Title III, RLI Food Grade™ Cleaner is a nonflammable, nonabrasive, noncorrosive, and nontoxic solution that is safe for use on both ferrous and non-ferrous metals. Manufactured under kosher supervision, it contains no animal byproducts and is readily biodegradable.

Benefits

- Readily biodegradable, non-toxic, and not bioaccumulative
- NSF A8 Registered
- Nonflammable, nonabrasive, noncorrosive, and nontoxic
- Contains no phosphates, petroleum distillates, or chlorinated hydrocarbons
- Free from SARA Title III reportable ingredients
- Exceptional cleaning power for baked-on grease, oil, fats, and food residues
- Safe for ferrous and non-ferrous metals
- Replaces petroleum solvents in industrial degreasing applications
- Kosher supervised and contains no animal byproducts
- Water-soluble and easy to rinse
- Clear color and fresh odor

Application / New Filling

General Applications:

- Military, Industrial, Transportation, Marine, Agricultural, and Home Use

Dilution Recommendations:

- **Industrial Cleaning** – Equipment, forklifts, engines, machinery, electric motors
 - Mix 1 part cleaner to 5 parts water (1:5)

- **Maintenance Cleaning** – Oil rigs, heat exchangers, pipes, machines, greasy floors
 - Mix 1 part cleaner to 2 parts water (1:2)
- **Vat Cleaning** – Greasy, carboned parts
 - Mix 1 part cleaner to 1 part water (1:1)

Use Directions:

Apply via circulation, soaking, brushing, spraying, or wiping. Rinse with water or remove with towel as needed. For best vat cleaning results, apply heat and agitation for 12 hours followed by pressure rinse. For ovens and oven chains, spray and heat to 150°F to enhance effectiveness.

Specifications and Approvals

- NSF A8 – General cleaner for all surfaces or for steam/mechanical cleaning
- NSF C1 – General purpose cleaner for use in non-food contact areas
- Food grade components listed in 21 CFR 178.3570
- Kosher supervised and free of animal byproducts
- Meets environmental compliance requirements

<u>Technical Data</u>	
pH:	11
Color:	Clear
Odor:	Fresh
Density:	8.34 lbs./gal
Flash Point:	None
Rinse Ability:	Completely
Type Cleaner:	Water Soluble Degreaser
Active Ingredients:	Detergents, Builders Soluble Solvent
Degreasing Efficiency:	Excellent
Specific Gravity:	1.02
Stability (Hot or Cold):	Excellent
